VOLUME XLIV

July-December, 1971

No. 1 (July)

ORIGINAL ARTICLES:

Survival After Starr-Edwards Aortic Valve Replacement. Fredric C. Shean, W. Gerald Austen, Mortimer J. Buckley, Eldred D. Mundth, J. Gordon Scannell, and Willard M. Daggett	1
Fine Structure of the His Bundle. Thomas N. James and Libi Sherf	9
Suicidal and Accidental Digoxin Ingestion: Report of Five Cases with Serum Digoxin Level Correlations. Thomas W. Smith and James T. Willerson	29
Measurement of Heart Chamber Volumes by Analysis of Dilution Curves Simultaneously Recorded by Scintillation Camera. Yasushi Ishii and William J. MacIntyre	37
Assessment of Cardiac Contractility: The Relation Between the Rate of Pressure Rise and Ventricular Pressure During Isovolumic Systole. Dean T. Mason, Eugene Braunwald, James W. Covell, Edmund H. Sonnenblick, and John Ross, Jr.	47
Evaluation of Sino-atrial Node Function in Man by Overdrive Suppression. William Mandel, H. Hayakawa, Ronald Danzig, and Harold S. Marcus	59
Hemodynamic Evaluation of Glucagon in Symptomatic Heart Disease. Paul W. Armstrong, Herman K. Gold, Willard M. Daggett, W. Gerald Austen, and Charles A. Sanders	67
Comparison of Human Ventricular Activation with a Canine Model in Chronic Myocardial Infarction. Thomas M. Daniel, John P. Boineau, and David C. Sabiston, Jr.	74
Alterations in the Circulatory Response to Exercise Following a Meal and Their Relationship to Postprandial Angina Pectoris. Robert E. Goldstein, David R. Redwood, Douglas R. Rosing, G. David Beiser, and Stephen E. Epstein	90
New Functional Concept of Valvular Mechanics in Normal and Diseased Aortic Valves. Paul D. Stein and William A. Munter	101
Increased Arteriovenous Oxygen Difference After Physical Training in Coronary Heart Disease. Jean-Marie R. Detry, Michel Rousseau, Genevieve Vandenbroucke, Fusako Kusumi, Lucien A. Brasseur, and Robert A. Bruce	109
Hemodynamic Effects of Angiotensin in Normal and Environmentally Stressed Monkeys. Ralph P. Forsyth, Barry I. Hoffbrand, and Kenneth L. Melmon	119

(Continued)

CONTENTS OF VOLUME XLIV

SPECIAL ARTICLE:

- Approaches to Sudden Death from Coronary Heart Disease.** Bernard Lown and Marshall Wolf 130

RADIOLOGIC NOTES IN CARDIOLOGY:

- The Angiocardiographic Diagnosis of Valvular Stenosis.** Murray G. Baron 143

BOOKS RECEIVED**BOOK REVIEWS****CORRECTION****NEWS FROM THE AMERICAN HEART ASSOCIATION**

- Report of Inter-Society Commission for Heart Disease Resources: Community Resources for the Diagnosis and Acute Care of Patients with Rheumatic Fever** A-197

No. 2 (August)

EDITORIAL:

- Autoimmune Heart Disease.** Noble O. Fowler 159

ORIGINAL ARTICLES:

- Acute Hemodynamic Effects of Dopamine in Patients with Shock.**

- Henry S. Loeb, Edward B. J. Winslow, Shahbudin H. Rahimtoola, Kenneth M. Rosen, and Rolf M. Gunnar 163

- Combined Papillary Muscle and Left Ventricular Wall Dysfunction as a Cause of Mitral Regurgitation: An Experimental Study.**

- Arun K. Mittal, Manly Langston, Jr., Keith E. Cohn, Arthur Selzer, and William J. Kerth 174

- Measurement of Coronary Sinus Blood Flow by Continuous Thermo-dilution in Man.** William Ganz, Kohji Tamura, Harold S. Marcus, Roberto Donoso, Shinji Yoshida, and Harold J. C. Swan 181

- Diastolic Heart Sounds and Filling Waves in Coronary Artery Disease.**

- Peter F. Cohn, Pantel S. Vokonas, Richard A. Williams, Michael V. Herman, and Richard Gorlin 196

- Myocardial Function in Coronary Artery Disease Determined by Atrial Pacing.** Joseph W. Linhart 203

- Reliability of Individual Frontal Plane Axis Determination.** Noboru Okamoto, Katsumi Kaneko, Ernst Simonson, and O. H. Schmitt 213

- Transient and Persistent Atrial Standstill with His Bundle Lesions:**

- Electrophysiologic and Pathologic Correlations.** Kenneth M. Rosen, Shahbudin H. Rahimtoola, Rolf M. Gunnar, and Maurice Lev 220

- Myocardial and Body Metabolism in Fatal Cardiogenic Shock after Valvular Replacement.** Emerson A. Moffitt, George D. Molnar, and Dwight C. McGoon 237

- Relationship of Cardiorenal Function to Renin-Aldosterone System in Patients with Valvular Heart Disease.** Walter E. Judson and Oscar M. Helmer 245

- Cold Hypersensitivity in Raynaud's Phenomenon.** Glyn Garfield Jamie-
son, John Ludbrook, and Alan Wilson 254

(Continued)

CONTENTS OF VOLUME XLIV

v

Production of Increased Right-to-Left Shunting by Rapid Heart Rates in Patients with Tetralogy of Fallot. Spencer B. King and Robert H. Franch	265
Congenital Aortic Stenosis Resulting from a Unicommissural Valve: Clinical and Anatomic Features of Twenty-One Adult Patients. M. Wayne Falcone, William C. Roberts, Andrew G. Morrow, and Joseph K. Perloff	272
Influence of Aortic Coarctation on Pulsatile Hemodynamics in the Proximal Aorta. Michael F. O'Rourke and Timothy B. Cartmill	281
BRIEF COMMUNICATION:	
Pacemaker Failure Following External Defibrillation. Jerzy O. Giedwoyn	293
RADIOLOGIC NOTES IN CARDIOLOGY:	
Pericardial Effusion. Murray G. Baron	294
BOOK REVIEWS	
LETTERS TO THE EDITOR:	300
Coronary Revascularization. David H. Spodick	302
Use of Propranolol in Preinfarction Angina. Nicholas M. Papazoglov	303
Fine Structure of the His Bundle. Maurice Lev	304
COMMITTEE REPORT:	
Criteria for the Evaluation of the Severity of Established Renal Disease. Council on the Kidney in Cardiovascular Disease, American Heart Association	306
NEWS FROM THE AMERICAN HEART ASSOCIATION	
Report of Inter-Society Commission for Heart Disease Resources: Resources for Optimal Long-Term Care of Congenital Heart Disease	A-205
No. 3. (September)	
EDITORIAL:	
Reentry: Slow Conduction, Summation and Inhibition. Paul F. Crane-field and Brian B. Hoffman	309
ORIGINAL ARTICLES:	
Dimensional Changes of the Human Left Ventricle Prior to Aortic Valve Opening: A Cineangiographic Study in Patients with and without Left Heart Disease. Joel S. Karliner, Richard J. Bouchard, and James H. Gault	312
Mean Velocity of Fiber Shortening: A Simplified Measure of Left Ventricular Myocardial Contractility. Joel S. Karliner, James H. Gault, Dwain Eckberg, Charles B. Mullins, and John Ross, Jr.	323
Clinical and Hemodynamic Studies in Patients with Homograft Mitral Valve Replacement. Anthony F. Graham, John S. Schroeder, Pat O. Daily, and Donald C. Harrison	334
Serial Observations on Left Ventricular Dysfunction in Acute Myocardial Infarction: II. Systolic Time Intervals in Power Failure. Juhani Heikkilä, Kimmo Luomanmäki, and Kalevi Pyörälä	343
Quantitative Hemodynamic Effects of Heart Rate in Aortic Regurgitation. Terrance P. Judge, J. W. Kennedy, Lowell J. Bennett, Robert E. Wills, John A. Murray, and John R. Blackmon	355

(Continued)

CONTENTS OF VOLUME XLIV

Natural History of Rheumatic Aortic Regurgitation: Criteria Predictive of Death, Congestive Heart Failure, and Angina in Young Patients. Mario Spagnuolo, Howard Kloth, Angelo Taranta, Eugenie Doyle, and Bernard Pasternack	368
Longitudinal Hemodynamic and Clinical Study of Mitral Stenosis. Albert A. Dubin, Harold W. March, Keith Cohn, and Arthur Selzer	381
Effects of Physical Training on Exertional S-T-Segment Depression in Coronary Heart Disease. Jean-Marie Detry and Robert A. Bruce	390
Resting and Postexercise Apexcardiogram Correlated with Maximal Treadmill Stress Test in Normal Subjects. Wilbert S. Aronow, John Cassidy, and Ronald R. Uyeyama	397
Effects of Chronic Right Ventricular Volume and Pressure Loading on Left Ventricular Performance. David T. Kelly, Henry M. Spotnitz, G. David Beiser, Joseph E. Pierce, and Stephen E. Epstein	403
Role of Parasympathetic Inhibition in the Hyperkinetic Type of Borderline Hypertension. Stevo Julius, Arturo V. Pascual, and Richard London	413
Direct Correlation of External Systolic Time Intervals with Internal Indices of Left Ventricular Function in Man. C. Edwin Martin, James A. Shaver, Mark E. Thompson, P. Sudhakar Reddy, and James J. Leonard	419
Onset of Angina Pectoris in Relation to Circulatory Adaptation during Arm and Leg Exercise. John Wahren and Stellan Bygdeman	432
Intermittent Ventricular Parasystole Due to Entrance Block Failure. Thomas G. Steffens	442
Clinical-Physiological Correlations in the Development of Hypertensive Heart Disease. Edward D. Frohlich, Robert C. Tarazi, and Harriet P. Dustan	446
Influence of Acute Variations in Hematocrit on the QRS Complex of the Frank Electrocardiogram. Amnon Rosenthal, Norma J. Restieaux, and Stephen A. Feig	456
Isolated Right Ventricular Hypoplasia. Luc G. Van der Hauwaert and Magnus Michaelsson	466
RADIOLOGIC NOTES IN CARDIOLOGY:	
Interlobar Effusion. Murray G. Baron	475
BOOK REVIEW	
LETTERS TO THE EDITOR:	
V_{max} as an Index of Contractile State in Man. Israel Mirsky	486
Ultrasonic Echoes. William Dock	487
Myocardial Function in CAD Determined by Atrial Pacing. John O. Parker	489
Pressure-Radius Relationships. Derek R. Boughner	491
NEWS FROM THE AMERICAN HEART ASSOCIATION	
Report of Inter-Society Commission for Heart Disease Resources: Optimal Resources for Cardiac Surgery	A-221

CONTENTS OF VOLUME XLIV

vii

No. 4 (October)

EDITORIAL:

- Midsystolic Clicks and Coronary Heart Disease.** Howard P. Lewis 493

ORIGINAL ARTICLES:

- Myocardial Infarction in Young Women with Normal Coronary Arteriograms.** D. Luke Glancy, Melvin L. Marcus, and Stephen E. Epstein 495
- Midsystolic Clicks in Arteriosclerotic Heart Disease: A New Facet in the Clinical Syndrome of Papillary Muscle Dysfunction.** R. Barrett Steelman, Richard S. White, John C. Hill, John P. Nagle, and Melvin D. Cheitlin 503
- Early Systolic Clicks Due to Mitral Valve Prolapse.** Adolph M. Hutter, Jr., Robert E. Dinsmore, James T. Willerson, and Roman W. DeSanctis 516
- Postextrasystolic Ventricular Pressure Responses.** W. Beck, E. Chesler, and V. Schrire 523
- "Color Vectorcardiogram" Recorded with a Specially Designed Apparatus for Spatial Representation by Coloring.** Shinji Kinoshita and Tadashi Kobayashi 534
- Systolic Time Intervals in Severe Aortic Valve Disease: Changes with Surgery and Hemodynamic Correlations.** Alfred F. Parisi, Stephen H. Salzman, and Eliot Schechter 539
- Relationship Between Changes in Left Ventricular Dimensions and the Ejection Fraction in Man.** Richard P. Lewis and Harold Sandler 548
- Effects of Alcohol on the Electrocardiogram.** George Sereny 558
- The Relationship of Pulmonary Venous Wedge to Pulmonary Arterial Pressures.** P. Syamasunda Rao and Norman J. Sissman 565
- Determination of Left Ventricular Volumes by Ultrasound.** Nicholas J. Fortuin, William P. Hood, Jr., M. Eugene Sherman, and Ernest Craigie 575
- S-T-Segment Depression with Near-Maximal Exercise in Detection of Preclinical Coronary Heart Disease.** Albert A. Kattus, Charles R. Jorgensen, Ralph E. Worder, and Anthony B. Alvaro 585
- Mechanism of Increased Sodium Reabsorption during Propranolol Administration.** Alan S. Nies, James S. McNeil, and Robert W. Schrier 596
- Diagnostic Import of QRS Notching in High-Frequency Electrocardiograms of Living Subjects with Heart Disease.** Nancy C. Flowers and Leo G. Horan 605
- Immunoglobulin Binding in Cardiomyopathic Hearts.** Sunil K. Das, Jeffery P. Callen, Vernon V. Dodson, and James T. Cassidy 612
- Mortality Study of the Significance of Extrasystoles in an Insured Population.** Manuel Rodstein, Leon Wolloch, and Richard S. Gubner 617
- Pulmonary Intravascular and Extravascular Fluid Volumes in Exercising Cardiac Patients.** Russell Luepker, Bo Liander, Magnus Korsgren, and Edward Varnauskas 626
- Effects of Chronic Heart Failure on the Capacity of Glucagon to Enhance Contractility and Adenyl Cyclase Activity of Human Papillary Muscles.** Robert E. Goldstein, C. Lynn Skelton, Gerald S. Levey, D. Luke Glancy, G. David Beiser, and Stephen E. Epstein 638

(Continued)

CONTENTS OF VOLUME XLIV

Hemodynamic Evaluation of Rate Augmentation Produced by Atrial Pacing and Isoproterenol in the Early Postoperative Phase of Cardiac Valve Surgery. Paul W. Armstrong, Herman K. Gold, Mortimer J. Buckley, James T. Willerson, and Charles A. Sanders	649
Chronic Intravascular Hemolysis after Aortic Valve Replacement: Long-Term Study Comparing Different Types of Ball-Valve Prostheses. Elaine Eyster, John Rothchild, and Olga Mychajiw	657
Control of Intractable Ventricular Tachycardia by Coronary Revascularization. Roger R. Ecker, Charles B. Mullins, John C. Grammer, William J. Rea, and James M. Atkins	666
Electrophysiologic Studies during Accelerated Idioventricular Rhythms. John J. Gallagher, Anthony N. Damato, and Sun H. Lau	671
Incomplete Right Bundle-Branch Block: An Electrocardiographic Enigma and Possible Misnomer. E. Neil Moore, John P. Boineau, and Donald F. Patterson, with James Alexander and A. J. Kennel	678
Cardiac Arrest in the Critically Ill: I. A Study of Predisposing Causes in 132 Patients. Samuel J. Camarata, Max Harry Weil, Paul K. Hanashiro, and Herbert Shubin	688
Lown-Ganong-Levine Syndrome: A Study Using His Bundle Electrograms. William J. Mandel, Ronald Danzig, and H. Hayakawa	696
Real-Time Analysis of Cardiac Catheterization Data Using a Computer System. Donald C. Harrison, J. Douglas Ridges, William J. Sanders, Edwin L. Alderman, and John A. Fanton	709
Pathologic Changes in Aortic-Coronary Arterial Saphenous Vein Grafts. Zeev Vlodaver and Jesse E. Edwards	719
Isolated Tricuspid Stenosis. Jacob R. Morgan, Alan D. Forker, J. R. Coates, and W. S. Myers	729
Auscultatory Recognition of Aneurysm of the Membranous Ventricular Septum Associated with Small Ventricular Septal Defect. Daniel R. Pieroni, Barbara B. Bell, L. Jerome Krovetz, P. Jacob Varghese, and Richard D. Rowe	733
Pulmonary Valve Atresia with Intact Ventricular Septum: Report of a Case with Long Survival and Pulmonary Blood Supply from an Anomalous Coronary Artery. John D. McArthur, Susil C. Munsi, I. P. Sukumar, and George Cherian	740
RADIOLOGIC NOTES IN CARDIOLOGY:	
Hypoplasia of the Inflow Portion of the Right Ventricle: An Angiocardiographic Sign of Tricuspid Atresia. Murray G. Baron	746
BOOK REVIEWS	
CORRECTION	751
NEWS FROM THE AMERICAN HEART ASSOCIATION	
Report of Inter-Society Commission for Heart Disease Resources:	
Part II: The Electrical Environment	A-237
Part III: Selection and Maintenance Program	A-247
No. 5 (November)	
EDITORIAL:	
"Preinfarctional" Angina: A Need for an Objective Definition and for a Controlled Clinical Trial of its Management. Noble O. Fowler	755
(Continued)	

ORIGINAL ARTICLES:

Abnormal Circulatory Responses to High Altitude in Subjects with a Previous History of High-Altitude Pulmonary Edema. Herbert N. Hultgren, Robert F. Grover, and L. Howard Hartley	759
Acute Changes in Left Ventricular Volume and Contractility during Ventricular Pacing in Patients with Complete Heart Block. Frederick L. Gobel, Charles R. Jorgensen, Kazato Kitamura, and Yang Wang	771
Carboxyhemoglobin Caused by Smoking Nonnicotine Cigarettes: Effects in Angina Pectoris. Wilbert S. Aronow and Stanley N. Rokaw	782
Sinoatrial-Node Entrance Block. Bruce N. Goldreyer and Anthony N. Damato	789
Conduction through a Narrow Isthmus in Isolated Canine Atrial Tissue: A Model of the W-P-W Syndrome. Domingo de la Fuente, Betty Sasyniuk, and G. K. Moe	803
Digoxin Metabolism in Obesity. Gordon A. Ewy, Bertron M. Groves, Michael F. Ball, Lana Nimino, Barbara Jackson, and Frank L. Marcus	810
Aortocoronary Bypass Graft: Initial Blood Flow through the Graft, and Early Postoperative Patency. Claude M. Grondin, Gilles Lepage, Yves R. Castonguay, Claude Meere, and Pierre Grondin	815
Supraventricular Tachycardia Initiated by Sinus Beats. Bruce N. Goldreyer, Melvin B. Weiss, and Anthony N. Damato	820
Occurrence of Ventricular Arrhythmias with Exercise as Compared to Monitoring. Bernard D. Kosowsky, Bernard Lown, Richard Whiting, and Timothy Guiney	826
Sites of Congenital and Surgical Heart Block as Defined by His Bundle Electrocardiography. Kenneth M. Rosen, Ashwin Mehta, Shahbuddin H. Rahimtoola, and Robert A. Miller	833
Cholesterol Production in Obesity. Tatu A. Miettinen	842
Myocardial Perfusion Imaging with Radioactive-Labeled Particles Injected Directly into the Coronary Circulation of Patients with Coronary Artery Disease. William L. Ashburn, Eugene Braunwald, Allan L. Simon, Kirk L. Peterson, and James H. Gault	851
Effects of Ouabain on Impaired Left Ventricular Function during Convalescence after Acute Myocardial Infarction. Shahbuddin H. Rahimtoola, Michael M. DiGilio, M. Ziad Sinno, Henry S. Loeb, Kenneth M. Rosen, and Rolf M. Gunnar	866
Silent Mitral Insufficiency in Acute Myocardial Infarction. James S. Forrester, George Diamond, Sheldon Freedman, Howard N. Allen, William W. Parmley, Jack Matloff, and H. J. C. Swan	877
Incidence of Myocardial Infarction and Sudden Death from Coronary Heart Disease in Nashville, Tennessee. Ruth M. Hagstrom, Charles F. Federspiel, and Yaw Chin Ho	884
Role of Echocardiography in Diagnostic and Hemodynamic Assessment of Hypertrophic Subaortic Stenosis. Pravin M. Shah, Raymond Gramiak, Allan G. Adelman, and E. Douglas Wigle	891
Quantification of Left Heart Volume and Systolic Outut in Transposition of the Great Arteries. Thomas P. Graham, Jr., Jay M. Jarmakani, Ramon V. Canent, Jr., and Paul H. Jewett	899

(Continued)

CONTENTS OF VOLUME XLIV

Double-Lumen Flotation Catheter for Use in Complex Congenital Cardiac Anomalies. David T. Kelly, L. Jerome Krovetz, and Richard D. Rowe	910
Surgical Considerations of Ventricular Septal Defect Associated with Complete Transposition of the Great Arteries and Pulmonary Stenosis. E. S. Imamura, Tetsuo Morikawa, Katsuhiko, Tatsuno, Souji Konno, Tatsuta Arai, and Shigeru Sakakibara	914
BRIEF COMMUNICATION:	
Cardiac Surgery in Neonates and Infants. Brian G. Barratt-Boyes	924
RADIOLOGIC NOTES IN CARDIOLOGY:	
Left Anterior Oblique View for Evaluation of Left Atrial Size. Murray G. Baron	926
BOOK REVIEW	
BOOKS RECEIVED	
SYMPOSIUM: Cardiomyopathy	
Introduction. Charles K. Friedberg	935
The Cardiomyopathies—Current Perspectives. Joseph K. Perloff	942
Virus and the Heart. Walter H. Abelmann	950
Ethyl Alcohol and the Heart. Timothy J. Regan	957
Peripartum Cardiomyopathy. John G. Demakis and Shahbuddin H. Rahimtoola	964
LETTERS TO THE EDITOR:	
Right Ventricular Anomalous Muscle Bundle. G. S. Gale and J. B. Barlow	969
NEWS FROM THE AMERICAN HEART ASSOCIATION	
Report of Inter-Society Commission for Heart Disease Resources: Guidelines for the Detection, Diagnosis and Management of Hypertensive Patients	A-263
No. 6 (December)	
EDITORIALS:	
Biochemical Profiling and the Natural History of Hypertensive Diseases: Low-Renin Essential Hypertensive Diseases, a Benign Condition. John H. Laragh	971
Measurement of Ventricular Volume in Man. Charles E. Rackley	975
A Stratified System of Coronary Care. Paul N. Yu	979
ORIGINAL ARTICLES:	
Effect of Sustained Isometric Handgrip Exercise on Left Ventricular Performance. Richard H. Helfant, Maria A. deVilla, and Steven G. Meister	982
Effects of Isometric Exercise on Cardiac Performance: The Grip Test. Charles Kivowitz, William W. Parmley, Roberto Donoso, Harold Marcus, William Ganz, and H. J. C. Swan	994
Hemodynamic Effects of Exercise in Isolated Valvular Aortic Stenosis. Robert J. Bache, Yang Wang, and Charles R. Jorgensen	1003

CONTENTS OF VOLUME XLIV

xi

Electrically Induced Atrial Tachycardia with Block: A Therapeutic Application of Permanent Radiofrequency Atrial Pacing. Robert M. Davidson, Andrew G. Wallace, Will C. Sealy, and Michael S. Gordon	1014
Etiology of Right Bundle-Branch Block in Patients Undergoing Total Correction of Tetralogy of Fallot. Henry Gelband, Albert L. Waldo, Gerard A. Kaiser, Frederick O. Bowman, Jr., James R. Malm, and Brian F. Hoffman	1022
Clinical, Surgical, and Pathologic Correlation in Patients with Acute Myocardial Infarction and Pump Failure. Hooshang Bolooki, Louis Lemberg, Ali Ghahramani, Chris Economides, Thomas Caldwell, and James R. Jude	1034
Evaluation of Left Ventricular Contractile State in Childhood: Normal Values and Observations with a Pressure Overload. Thomas P. Graham, Jr., Jay M. Jarmakani, Ramon V. Canent, Jr., and Page A. W. Anderson	1043
Natural Course of Peripartum Cardiomyopathy. John G. Demakis, Shahbudin H. Rahimtoola, George C. Sutton, W. Robert Meadows, Paul B. Szanto, John R. Tobin, and Rolf M. Gunnar	1053
Coronary Hemodynamics during Successive Elevation of Heart Rate by Pacing in Subjects with Angina Pectoris. Shinji Yoshida, William Ganz, Roberto Donoso, Harold S. Marcus, and H. J. C. Swan	1062
Evaluation of Pulmonary Arterial End-Diastolic Pressure as an Estimate of Left Ventricular End-Diastolic Pressure in Patients with Normal and Abnormal Left Ventricular Performance. Richard J. Bouchard, James H. Gault, and John Ross, Jr.	1072
Angiographic Features of Rheumatic and Nonrheumatic Mitral Regurgitation. Lewis Wexler, James F. Silverman, Robert F. DeBusk, and Donald C. Harrison	1080
Electrophysiologic Studies on Mobitz Type II Second-Degree Heart Block. Joseph F. Spear and E. Neil Moore	1087
Atrioventricular Conduction Defects in Patients with Sinus Bradycardia: Analysis by His Bundle Recordings. Onkar S. Narula	1096
Mobitz Type II Block without Bundle-Branch Block. Kenneth M. Rosen, Henry S. Loeb, Rolf M. Gunnar, and Shahbudin H. Rahimtoola	1111
SPECIAL ARTICLE:	
Use of Exercise Testing for Diagnostic and Functional Evaluation of Patients with Arteriosclerotic Heart Disease. C. Gunnar Blomqvist	1120

CIRCULATION

VOLUME XLIV

JULY-DECEMBER, 1971

SUBJECT INDEX

A

- Accelerated idioventricular rhythms** electrophysiologic studies, 671
Acetylcholine conduction through narrow isthmus in isolated canine atrial tissue, 803
sino-atrial node function, 59
Acidosis cardiac arrest in critically ill, 688
Adenyl cyclase activity effects of chronic heart failure on glucagon, 638
Adrenal medulla effects of alcohol on ECG, 558
Afterload assessment of cardiac contractility, 47
Alcohol effects on electrocardiograms, 558
ethyl alcohol and the heart, 957
Aldosterone low-renin essential hypertension, 971
renin-aldosterone system in valvular heart disease, 245
Aminophylline cardiac arrest in critically ill, 688
Anemia acute variations in hematocrit, 456
hemolytic chronic intravascular hemolysis after aortic valve replacement, 657
Aneurysms auscultatory recognition of aneurysm of membranous ventricular septum associated with small ventricular septal defect, 733
control of ventricular tachycardia by coronary revascularization, 666
influence of aortic coarctation on pulsatile hemodynamics in proximal aorta, 281
Angina pectoris carboxyhemoglobin caused by smoking nonnicotine cigarettes, 782
coronary hemodynamics during elevation of heart rate by pacing in, 1062
during arm and leg exercise, 432
increased arteriovenous oxygen difference after physical training in coronary heart disease, 109
myocardial function in coronary artery disease determined by atrial pacing, 203, 489
pathologic changes in aortic-coronary arterial saphenous vein grafts, 719
postprandial exercise and, 90
"preinfarctional" 755
rheumatic aortic regurgitation and, 368
use of propranolol in preinfarction angina, 303
Angiocardiography determination of LV volumes by ultrasound, 575
diagnosis of valvular stenosis, 143
hypoplasia of inflow portion of right ventricle: sign of tricuspid atresia, 746
measurement of ventricular volume, 975
pericardial effusion, 294
quantitative hemodynamic effects of heart rate in aortic regurgitation, 355
relationship between changes in LV dimensions and ejection fraction, 548

Angiography

- pulmonary valve atresia with intact ventricular septum, 740
rheumatic and nonrheumatic mitral regurgitation, 1080

Angiotensin

- effects of isometric exercise on cardiac performance: grip test, 994
hemodynamic effects in normal and stressed monkeys, 119

Animal studies

- cats assessment of cardiac contractility, 47
dogs aortic coarctation, 281
assessment of cardiac contractility, 47
comparison of human ventricular activation with canine model in chronic MI, 74
coronary sinus blood flow, 181
incomplete right bundle-branch block, 678
mitral regurgitation, 174
propranolol and sodium metabolism, 596
monkeys angiotensin in normal and stressed monkeys, 110

Antiarrhythmic drugs

- approaches to sudden death from coronary heart disease, 130

Antibodies

- autoimmune heart disease, 159
immunoglobulin binding in cardiomyopathic hearts, 612

Anticoagulants

- ethyl alcohol and the heart, 957
homograft mitral valve replacement
clinical and hemodynamic studies, 334

Antigens

- autoimmune heart disease, 159

Aorta

- coarctation of. See Coarctation of aorta
influence of aortic coarctation on pulsatile hemodynamics in proximal, 281

Aorta-coronary saphenous vein grafts

- control of ventricular tachycardia, 666
pathologic changes in, 719
"preinfarctional" angina, 755

Aortic arch

- radiologic examination of right, 1137

Aortic regurgitation

- congenital aortic stenosis, 272
criteria predictive of death, congestive heart failure and angina in young patients, 368
quantitative hemodynamic effects of heart rate in, 355

Aortic stenosis

- angiographic diagnosis of, 143
congenital aortic stenosis resulting from unicameral valve, 272
evaluation of LV contractile state in childhood, 1043
guidelines for long-term care, Aug., A-208
hemodynamic effects of exercise in isolated valvular aortic stenosis, 1003
systolic time intervals in severe aortic valve disease, 539

- Aortic valves**
 hemodynamic effects of exercise, 1003
 insufficiency
 systolic time intervals in severe aortic valve disease, 539
 new functional concept of valvular mechanics in normal and diseased aortic valves, 101
 pressure gradient
 hemodynamic effects of exercise in isolated valvular aortic stenosis, 1003
 replacement
 chronic intravascular hemolysis after, 657
 survival after, 1
 systolic time intervals in severe aortic valve disease, 539
- Aortocoronary venous bypass grafts**
 blood flow and early postoperative patency, 815
 pathologic changes in, 719
 "preinfarctional" angina, 755
- Aortograms**
 valvular mechanics in normal and diseased aortic valves, 101
- Apexcardiography**
 diastolic heart sounds and filling waves in coronary artery disease, 196
 resting and postexercise apexcardiogram correlated with maximal treadmill stress test, 397
- Arm exercise**
 angina during arm and leg exercise, 432
- Arrhythmias**
 accelerated idioventricular rhythms, 671
 approaches to sudden death from coronary heart disease, 130
 atrial standstill with His bundle lesions, 220
 electrically induced atrial tachycardias with block: therapeutic application of permanent atrial pacing, 1014
 ethyl alcohol and the heart, 957
Lown-Ganong-Levine syndrome, 696
 Mobitz type II block without bundle-branch block, 1111
 Mobitz type II second-degree heart block, 1087
 rheumatic heart disease, Dec., A-278
- Symposium on Cardiac Arrhythmias, Elsinore, Denmark, 1970** (Sandoe, Flensted-Jensen, and Olesen, editors) 754
- ventricular, occurrence with exercise as compared to monitoring, 826
 ventricular tachycardia, controlled by coronary revascularization, 666
- Angiography**
 control of ventricular tachycardia by coronary revascularization, 666
 diastolic heart sounds and filling waves in coronary artery disease, 196
 heart in hypertension, 448
 MI in young women with normal coronary arteriograms, 495
 myocardial perfusion imaging, 851
- Arteriosclerotic heart disease**
 exercise testing for diagnostic evaluation of, 1120
 midsystolic clicks in, 503
- Arteriovenous oxygen difference**
 after physical training in coronary heart disease, 109
- Atherosclerosis**
 pathologic changes in aortic-coronary arterial saphenous vein grafts, 719
- Atresia**
 pulmonary valve, with intact ventricular septum, 740
 tricuspid, 746
- Atria**
 conduction through narrow isthmus in isolated canine atrial tissue, 803
 fibrillation, mitral stenosis, 381
 left anterior oblique view for evaluation of left atrial size, 926
 left atrial abnormality, development of hypertensive heart disease, 446
 septectomy, transposition of the great arteries, 899
 tachycardia, electrically induced, with block, 1014
- Atrial pacing**
 accelerated idioventricular rhythms, 671
 A-V conduction defects in sinus bradycardia, 1096
 coronary hemodynamics during elevation of heart rate by pacing in angina pectoris, 1062
 electrically induced atrial tachycardia with block, 1014
 hemodynamic effects of heart rate in aortic regurgitation, 355
 hemodynamic evaluation of rate augmentation produced by isoproterenol and, 649
 increased right-to-left shunting by rapid heart rates in tetralogy of Fallot, 265
 myocardial function in coronary artery disease determined by, 203, 489
 sino-atrial node function, 59
 supraventricular tachycardia, 1014
- Atrial premature depolarizations**
 sinoatrial-node entrance block, 789
- Atrial septal defect**
 guidelines for long-term care, Aug., A-208
 transposition of the great arteries, 899
- Atrial shunt**
 hypoplasia of inflow portion of right ventricle, 746
- Atrial standstill**
 transient and persistent atrial standstill with His bundle lesions, 220
- Atrioventricular block**
 Mobitz type II second-degree heart block, 1087
- Atrioventricular conduction**
 conduction through narrow isthmus in isolated canine atrial tissue, 803
 defects in patients with sinus bradycardia, 1096
Lown-Ganong-Levine syndrome, 696
 Mobitz type II block without bundle-branch block, 1111
 supraventricular tachycardia initiated by sinus beats, 820
- Atrioventricular (A-V) node**
 fine structure of His bundle, 9, 304
Lown-Ganong-Levine syndrome, 696
 sinoatrial-node entrance block, 789
- Atropine**
 accelerated idioventricular rhythms, 671
 A-V conduction defects in sinus bradycardia, 1096
 increased right-to-left shunting by rapid heart rates in tetralogy of Fallot, 265
 sino-atrial node function, 59
- Auscultation**
Auscultation of the Heart, edition 3, (Turner), 301
 recognition of aneurysm of membranous ventricular septum associated with small ventricular septal defect, 733
- Autoimmune heart disease**, 159
- Automaticity**
 sinoatrial-node entrance block, 789

B**Bacterial endocarditis**

- rheumatic heart disease and, Dec., A-275
- Balloon atrial septostomy**
transposition of the great arteries, 899
- Balloon catheter**
right ventricular hypoplasia, 466
- Beta-adrenergic blockade**
propranolol and sodium metabolism, 596
- Bilateral bundle-branch block**
atrial standstill with His bundle lesions, 220
Mobitz type II block without bundle-branch block, 1111
sites of congenital and surgical heart block, 833

Bile acids

- cholesterol production in obesity, 842

Biopsy, myocardial

- peripartum cardiomyopathy, 1053

Block

- bilateral bundle-branch block. *See* Bilateral bundle-branch block
 - bundle-branch block. *See* Bundle-branch block
 - entrance block failure: intermittent ventricular parasystole due to, 442
 - incomplete right bundle-branch; ECG enigma and possible misnomer, 678
 - sinoatrial-node entrance block, 789
- See also* Heart block

Blood flow

- coronary, hemodynamics during elevation of heart rate by pacing in angina pectoris, 1062
- coronary sinus, measurement by continuous thermodilution, 181
- effects of angiotensin in normal and stressed monkeys, 119
- pulmonary, transposition of the great arteries, 899
- renal, propranolol and sodium metabolism, 596

Blood gases

- high-altitude pulmonary edema, 759

Blood pressure

- effects of angiotensin in normal and stressed monkeys, 119
 - postprandial exercise and angina pectoris, 90
- See also* Pressures

Blood viscosity

- cold hypersensitivity in Raynaud's phenomenon, 254

Body weight

- digoxin metabolism in obesity, 810

Books received, 155, 933**Book reviews**, 157, 300, 485, 751, 932, 1146**Bundle-branch block**

- bilateral, 220
- left
atrial standstill with His bundle lesions, 220
Mobitz type II heart block without, 1111
Mobitz type II second-degree heart block, 1087
right
etiology in total correction of tetralogy of Fallot, 1022
incomplete, 678
Low-Ganong-Levine syndrome, 698

C**Carboxyhemoglobin**

- caused by smoking nonnicotine cigarettes, 782

Cardiac arrest

- acute MI and pump failure, 1034
in critically ill, 688

Circulation, Volume XLIV, December 1971

Cardiac index

- effect of sustained isometric handgrip exercise on LV performance, 982
- hemodynamic evaluation of rate augmentation produced by atrial pacing and isoproterenol, 649
- metabolism in fatal cardiogenic shock, 237

Cardiac output

- effect of sustained isometric handgrip exercise, 982
- effects of angiotensin in normal and stressed monkeys, 119
- effects of ouabain in acute MI, 866
- hemodynamic evaluation of glucagon, 67
- hyperkinetic type of borderline hypertension, 413
- increased arteriovenous oxygen difference after physical training in coronary heart disease, 109
- measurement of heart chamber volumes by analysis of dilution curves, 37
- propranolol and sodium metabolism, 596

Cardiac performance

- combined papillary muscle and LV wall dysfunction as cause of mitral regurgitation, 174

Cardiogenic shock

- acute MI and pump failure, 1034

Cardiomegaly

- interlobar effusion, 475
- pericardial effusion, 294
- peripartum cardiomyopathy, 1053

Cardiomyopathies

- asymptomatic idiopathic cardiac hypertrophy, 937
- clinical considerations, 937, 945
- current perspectives, 942
- diagnosis, 937, 945
- cardiac hypertrophy due to cardiomyopathies, 938
- congestive heart failure due to cardiomyopathy, 938
- outflow obstruction due to cardiomyopathy, 939
- etiology, 935, 943
- familial cardiomyopathy, 944
- heredofamilial neuromyopathic diseases and, 945
- idiopathic cardiomyopathy, 943
- immunoglobulin binding in cardiomyopathic hearts, 612

- infiltrative cardiomyopathies, 945
- inflammatory cardiomyopathy, 944
- metabolic cardiomyopathies, 945

- tachycardias
 - accelerated idioventricular rhythms, 671
 - control by coronary revascularization, 666
 - volume
 - measurement of, 975
- Ventricular septal defect**
 - auscultatory recognition of aneurysms, 733
 - etiology of right bundle-branch block, 1022
 - guidelines for long-term care, Aug., A-208
 - surgical considerations of VSD associated with complete transposition of the great arteries, 914
 - transposition of the great arteries, 899
- Ventriculography**
 - myocardial function in coronary artery disease determined by atrial pacing, 203
- Ventriculotomy**
 - etiology of right bundle-branch block, 1022
- Viral infections**
 - and the heart, 950
- Vocational guidance**
 - congenital heart disease patients, Aug., A-212
 - rheumatic heart disease, Dec., A-280

- Volumes**
 - measurement of heart chamber volumes by analysis of dilution curves, 37
 - measurement of ventricular volume, 975
 - pulmonary fluid volumes in exercising cardiac patients, 626

W

- Wall motion disorder**
 - dimensional changes of LV, 312
- Wenckebach block**
 - Mobitz type II block without bundle-branch block, 1111
- Wolff-Parkinson-White syndrome**
 - conduction through narrow isthmus of isolated canine atrial tissue, 803
 - sites of congenital and surgical heart block, 833

X

- X-rays**
 - rheumatic fever, July, A-199

SUPPLEMENTS to CIRCULATION

An Official Journal of the American Heart Association

VOLUMES XLIII AND XLIV

July-December, 1971

AMERICAN HEART ASSOCIATION, INC.

SUPPLEMENTS to CIRCULATION

AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION
44 East 23rd Street, New York, N. Y. 10010

EDITORS OF SUPPLEMENTS

JOHN ROSS, JR.
(*Circulation*)

EUGENE BRAUNWALD, Chairman

THEODORE COOPER
(*Circulation Research*)

EDITORIAL BOARD

Carleton R. Treadwell, *Council on Arteriosclerosis*
Harris B. Shumacker, Jr., *Council on Cardiovascular Surgery*
Herbert N. Hultgren, *Council on Clinical Cardiology*
Patrick J. Mulrow, *Council for High Blood Pressure Research*
William B. Kannel, *Council on Epidemiology*

Jere H. Mitchell, *Council on Basic Science*
H. Edward Holling, *Council on Circulation*
W. A. Krehl, *Council Coordinating Committee for Community Program*
Benedict F. Massell, *Council on Rheumatic Fever and Congenital Heart Disease*
Fletcher H. McDowell, *Council on Cerebrovascular Disease*

Supplements to CIRCULATION will be published occasionally for binding annually in a separate volume entitled Supplements to CIRCULATION. Each supplement's page numbers will begin with page one. Supplements to CIRCULATION will be indexed separately at the end of the year.

PUBLICATIONS COMMITTEE, AMERICAN HEART ASSOCIATION

EUGENE BRAUNWALD, Chairman
La Jolla, Calif.

CRAWFORD W. ADAMS
Nashville, Tenn.

SUBJECT INDEX

NUMBERS REFER TO ABSTRACT NUMBERS AND NOT TO PAGES.

A

- ABBOTT-38414** dissolution of experimental venous thrombosis due to electrical injury by, 614
- Acetaldehyde** effects of chronic ethanol consumption on cardiac metabolism of ethanol, acetaldehyde, and acetate, 619 and myocardial depressant effects of ethanol, 468
- Acetate** effects of chronic ethanol consumption on cardiac metabolism of ethanol, acetaldehyde, and acetate, 619
- Acetazolamide** effect on experimental cerebral ischemia and infarction, 403
- Acetylcholine** constriction of ductus arteriosus by, in premature infants, 668
- Acetylstrophanthidin** antibody reversal of ouabain and, effects in cardiac muscle, 428 correlation of serum digoxin concentration with, 704
- Acidosis** cerebral acidosis in hemorrhagic shock, 340
- ACTH** adrenal cortical response to hemodialysis, ACTH and angiotensin II in anephric man, 227
- Action potentials** rate dependent changes in action potential upstroke velocity during digitalization, 918
- Actomyosin** in mesangial cells of renal glomerulus, 226
- Actomyosin ATPase** effect of physical conditioning on, 487
- Adenine nucleotide** behavior during the release reaction induced by ADP and epinephrine, 286
- Adenosine** mechanism of incorporation into adenine nucleotides, 484 released from human hearts during angina induced by pacing, 620
- Adipose tissue** cholesterol synthesis in white adipose tissue, 2
- Adrenal cortex** abnormalities with essential hypertension IV, 314 response to hemodialysis, ACTH and angiotensin II in anephric man, 227
- Adrenergic influences** on distal conducting system of the heart, 299 effect of beta blocking agent in shock lung, 431 evidence suggesting the presence of beta adrenergic receptors in cerebral circulation of goats, 737 in vitro properties of cardiac β -adrenergic receptor, 429 excessive adrenergic stimulation manifest by shortened electromechanical systole, 728
- Aerosol propellants** arterial hypotension and myocardial depression caused by inhalation of, 159
- evidence from animals and man that freon depresses myocardial contractility, 434
- Age** cholesterol concentration correlated with age, weight, and coronary artery disease, 53 influence of arterial pulse pressure and age on baroreflex sensitivity, 822 relation of age to ECG changes after maximum stress, 262
- Akinesia** extent and geography of myocardial akinesia described by non-invasive means, 702
- Albumin** digitalis binding to, 810
- Alcohol use** cardiac effect of cocktails, 924 clinical course of cardiomyopathy associated with, 589 effect of equimolar sucrose and, on myocardial contractility, 775 effects of chronic ethanol consumption on cardiac metabolism of ethanol, acetaldehyde, and acetate, 619 experimental lead cardiomyopathy, 375 improved cardiac performance after chelation, 121 myocardial function and metabolism in well nourished, chronic alcoholic animals, 158 relationship of alcohol intake to lipid levels in men, 195
- Aldosterone** characterization of antialdosterone antibodies, 446 increased plasma renin activity and secondary aldosteronism in hyperthyroidism, 475 low renin hypertension: state of inappropriate secretion of, 647 renin and, in etiology and prognosis of "essential" hypertension, 445
- Allopurinol** generalized coronary vasodilator, 875
- Alpha-methyl-dopa** hemodynamic effects of chronic administration, 708
- Alpha receptor blockage** mesenteric artery flow in experimental MI, 267

- effects of chronic ethanol consumption on cardiac metabolism of ethanol, acetaldehyde, and acetate, 619
- systolic time intervals altered with low doses of, 119

Excitation waves

- collision of, in ventricular conduction system, 250

Exercise

- abnormal regional circulatory response to severe exercise in conscious dogs with heart failure, 265
- arrhythmias in two-step test, 82
- blood pressure responses to submaximal, 94
- comparative effects of isometric and isotonic exercise on ECG, pressure, heart rate and pressure-rate product, 663
- during acute myocardial infarction in dogs, 201
- effect of beta-adrenergic receptor blockade on responses of systolic time intervals to exercise, 741
- effect of beta-blockade and, on myocardial contractility, 831
- effect of physical conditioning on actomyosin ATPase, 487
- effects of blocking the autonomic nervous system during exercise, 430
- effects of oral propranolol on responses to isoproterenol and, 848
- induced hemodynamic effects of A-V fistulas used for hemodialysis, 798
- ischemic heart disease
 - disparities between coronary arteriography, resting LV function and maximal exercise performance, 774
 - rehabilitation training program after, 760
 - isometric
 - comparison of angiotensin infusion and, as stress tests for evaluation of LV function, 465
 - hemodynamic evaluation of, 161
 - LV performance during exercise before and after aorto-coronary vein graft surgery, 552
 - NASA USPHS health evaluation and enhancement program, 260
 - rehabilitation following MI
 - control study of effects of early activation, 438
 - early intervention program, 435
 - early reconditioning after MI, 437
 - experiences with program of early activation, 436
 - relation of age to ECG changes after maximum stress, 262
 - relationship between percent maximal oxygen uptake and percent maximal heart rate in normals and cardinals, 263
 - repeated testing in patients with angina pectoris, 264
 - significance of exercise S-T elevation, 833
 - strain gauge plethysmograph: accurate index of true mean forearm blood flow during exercise, 740
- stress testing
 - cardiac dysrhythmias associated with, 500
 - correlation with coronary arteriograms in long-term survivors of cardiac transplantation, 565
 - pre- and postoperative, in patients undergoing direct myocardial revascularization, 522
- stroke volume during the first few minutes of recovery after supine, 580
- sustained hand grip, modification of CV responses by beta-adrenergic blockade, 748

- treadmill
 in assessment of functional capacity of cardiac patients, 795
 evaluation before and after an organized training program, 261
 two-year follow up study of ECG changes on maximum stress, 762
- Exertional syncope**
 hemodynamic changes accompanying, in dogs with right ventricular outflow obstruction, 640
- F**
- Familial studies**
 hypo-*b*-lipoproteinemia; serum lipoproteins during physiologic and pathologic change, 76
- Fascia lata valves**
 hemodynamic follow-up of autologous, 850
 morphology of, 97
- Fascicular block**
 changes in inferior wall myocardial infarction pattern produced by, 213
- Fats**
 effects of high carbohydrate, fat-free diet upon serum lipids, 24
 role of high density lipoproteins in transport of exogenous fat, 31
- Fatty acids**
 beta-hydroxy fatty acid synthesis by heart mitochondria, 675
 See also Free fatty acids
- Fatty streaks**
 lipoprotein-acid mucopolysaccharide complexes from fatty streaks of human aorta, 20
 surface defects from cholesterol ester rich organelles from fibrous plaques and, 66
- Fecal steroids**
 effects of clofibrate on fecal excretion of bile acids in hyperlipemia, 72
- Femorotibial bypass**
 for salvage of ischemic lower extremity with autogenous saphenous vein graft, 154
- Fetus**
 efferent sympathetic development in fetal lamb heart, 166
 human fetal and neonatal digoxin studies, 168
 studies of mouse hearts in organ culture; influence of fetal age on glucose and fatty acid uptake, 167
- Fiber shortening**
 determination of mean velocity of circumferential fiber shortening by echocardiography, 115, 790
- Fiberoptic oximeter**
 for continuous *in vivo* assessment of arteriovenous oxygen difference, 571
- Fibril formation**
 heart looping and, 422
- Fibrillation**
 atrial
 experimental, in conscious dogs, 670
 nature of A-V transmission in presence of, 208
 ventricular
 arrhythmias following release of coronary occlusion in dogs, 830
 effect of lidocaine on, during acute coronary artery ligation, 303
 effect of lidocaine on threshold for, during normal sinus rhythm and following premature ventricular contraction, 632
 induced by hypothalamic stimulation during coronary occlusion, 200
 instant-ECG sensor in sudden death, 852
 mechanism of production of, in coronary angiography, 862
- prevention of sudden coronary death through automatic detection and treatment of VF using a single intravascular catheter system, 457
- Fibrinogen**
 deposition in aortic intima, 181
 platelet and fibrinogen kinetic studies in arterial and venous thrombosis, 232
 release of platelet fibrinogen by thrombin, 281
 subunit composition of human fibrinogen fractions, 277
 technique for detection of deep vein thrombosis, 180
- Fibrinolysis**
 abnormal inhibition of fibrinolysis in familial pulmonary hypertension, 864
- Fibrinolytic activity**
 localization of, at lining of valves from hearts and veins, 40
- Fibrinopeptide A**
 synthesis of human, by solid-phase method, 276
- Fibroblasts**
 use of cultured human fibroblasts to study plasma lipoprotein triglyceride uptake, 58
- Fibrous plaques**
 surface defects from cholesterol ester rich organelles from fatty streaks and, 66
- Filtration**
 of microaggregates in blood, 872
- Fistulas, 636**
 exercise induced hemodynamic effects of A-V fistulas used for hemodialysis, 798
- Flutter, atrial**
 atrial pacing in management of, 653
 countershock of atrial flutter, 352
 with 1:1 conduction, 767
- Foramen ovale**
 incidence and significance of, after repair of tetralogy of Fallot, 724
- Fourth heart sound**
 in patients with proven normal hearts, 519
- Framingham (Mass.) study**
 prognosis and persistence of ECG findings according to location of MI, 311
- Free fatty acids**
 changes in free fatty acid degradation by Krebs pathway in atherosclerotic aorta, 23
 effect of CPIB on free fatty acid utilization by cells, 188
 effect of FFA infusion on glucose metabolism in diabetic dogs, 71
- Freon**
 arterial hypotension and myocardial depression caused by inhalation of aerosol propellants, 159
 depressing effect on myocardial contractility, 434
- Furosemide**
 extra-renal hemodynamic effects of furosemide in acute LV failure, 160
 hemodynamic effects in acute MI, 585
 myocardial effect of diuretic drugs, 851
- G**
- Gas endarterectomy**
 in surgical treatment of diffuse coronary artery disease, 694
- Gas exchange**
 in bronchial circulation of patients with pulmonary vascular atresia, 854
 lung perfusion and, post MI, 696
- "Gate" in distal ventricle**
 evidence for "gate" in distal human ventricular specialized conduction system, 553

- Gating mechanism**
localization of, in peripheral intraventricular conduction system, 627
- Glucagon**
effect of atropine and, on A-V nodal and His bundle pacemakers, 777
- Glucose**
cholesterol gluconeogenesis, 80
effects of free fatty acid infusion on glucose metabolism in diabetic dogs, 71
effects on metabolism and cardiac output of glucose-K solution with and without insulin, 396
glucose-insulin-potassium induced reductions in MI size following acute coronary occlusion, 747
maintenance of viability of anoxic myocardium with glucose and insulin, 666
- Glycerides**
relation of plasma glyceride and cholesterol levels to coronary risk factors in Modesto, Calif., 98
- Glycerol**
treatment of cerebral infarction with, 344
- Glycosides**
digitalis binding to albumin, 810
effect of bile-acid-binding resins on cardiac glycoside plasma levels, 513
effects of steroid binding resin on serum glycoside levels in dogs, 919
sensitive general assay for cardiac glycosides, 542
- Golgi apparatus**
isolation and characterization of lipoproteins from intestinal Golgi apparatus, 35
- Grafts**
aorto-coronary bypass
preoperative correlates of mortality, 366
aorto-coronary saphenous vein bypass
importance of ventricular function in predicting operative mortality in, 817
re-establishment of, after early thrombosis, 814
aorto-coronary vein bypass
determinants of angiographic patency, 390
factors influencing patency of, 388
LV performance during exercise before and after, 552
in patients with LV failure, 648
autografts, renal function in, 855
coronary artery bypass
effects on ventricular performance after chronic coronary artery occlusion, 746
coronary-saphenous
detection of MI following surgery by ECG and serum enzyme changes, 494
extracranial-intracranial vascular bypass graft on acute stroke in dogs, 292
homografts
aortic valve replacement using frozen irradiated homografts, 129
comparison of Starr-Edwards prostheses and, for aortic valve replacement, 130
mitral valve replacement using unstented "fresh" semilunar valve homografts, 240
single aortic cusp replacement, 235
LV bypass in unanesthetized dog: employing transthoracic cannulation and paracorporeal roller pump, 805
morphology of fascia lata heart valve prostheses, 97
new surface for artificial hearts with survival of up to one week in calves, 930
proximal vein bypass, distal CO₂ coronary artery endarterectomy and, 899
pulmonary artery, surface structure of cellular lining, 761
- pulmonary autografts, late assessment of pulmonary autograft replacement for aortic valve disease, 234
- saphenous vein bypass
angiographic findings in patients with manual core endarterectomy and, 370
femorotibial bypass with, 154
LV performance following bypass surgery, 596
measurement of blood flow by roentgen videodensitometry, 389
objective assessment, 706
See also Surgery, saphenous vein bypass
triple coronary artery grafts, 646
